21	1	T1	ECR28 Transformer, 460uH	ECR28	460uH		BOCHANG
22	2	R5 R24	Resistor, Chip, 1/8W, 1%	0805	10R	STD	Yageo
23	1	R9	Resistor, Chip, 1/10W, 1%	0603	18K	STD	Yageo
24	1	R2	Resistor, Chip, 1/8W, 1%	0805	240K	STD	Yageo
25	1	R13	Resistor, Chip, 1/10W, 1%	0603	51K	STD	Yageo
26	1	R10	Resistor, Chip, 1/10W, 1%	0603	6.8K	STD	Yageo

27	1	R8	Resistor, Chip, 1/8W, 1%	0805	91K	STD	Yageo
28	2	R17 R20	Resistor, Chip, 1/10W, 1%	0603	NA		Yageo
29	1	R25	Resistor, Chip, 1/8W, 1%	0805	NA		Yageo
30	1	R14	Resistor, 1206, 1/4W, 1%	1206	0.68R	STD	Yageo
31	1	R15	Resistor, 1206, 1/4W, 1%	1206	8.2R	STD	Yageo
32	1	R1	Resistor, Chip, 1/8W, 1%	0805	10K	STD	Yageo
33	2	R6 R7	Resistor, Chip, 1/4W, 1%	1206	100K	STD	Yageo
34	1	R3	Resistor, Chip, 1/4W, 5%	1206	68R	STD	Yageo
35	2	R4 R21	Resistor, Chip, 1/4W, 1%	1206	82K	STD	Yageo
36	2	R18-19	Resistor, Chip, 1/4W, 1%	1206	NA		Yageo
37	2	R22-23	Resistor, Chip, 1/4W, 5%	1206	NA		Yageo
38	2	C11-12	CAP ALUM 330UF 63V 20% RADIAL	10mm(die.)x20mm(hight)	330uF/63V	ECA1JHG331	Panasonic
39	1	C4	CAP ALUM 33UF 35V 20% RADIAL	6.3mm(die.)x7mm(hight)	33uF/35V	ECE-A1VKA330	Panasonic
40	1	D4	Switching diode, 0.2A, 100V	SOD323	0.2A,200V	MMDL914T1G	ON Semiconductor
41	1	D6	DIODE SWITCH 75V 200MW SOD323	SOD323	0.2A,200V	1N4148WS	DIODES/Vishay
42	1	D7		SOD323	NA		DIODES/Vishay
43	4	L LED+ LED- N	2.54mm Pin Header			61300111121	Wurth
44	1	U1	Off-Line Primary Side Sensing Controller with PFC in 8-SOIC	S0-8	TPS92314D	TPS92314D	TI
45	1	Q4		SOT23	NA		
46	1	Q1	MOSFET N-CH 600V 2A DPAK	TO-252	2A 600V	STD2Hnk60Z	ST

Note: Devices with fields marked as NA can be chosen at the option of the designer.

IMPORTANT NOTICE

Texas Instruments Incorporated and its subsidiaries (TI) reserve the right to make corrections, enhancements, improvements and other changes to its semiconductor products and services per JESD46, latest issue, and to discontinue any product or service per JESD48, latest issue. Buyers should obtain the latest relevant information before placing orders and should verify that such information is current and complete. All semiconductor products (also referred to herein as "components") are sold subject to TI's terms and conditions of sale supplied at the time of order acknowledgment.

TI warrants performance of its components to the specifications applicable at the time of sale, in accordance with the warranty in TI's terms and conditions of sale of semiconductor products. Testing and other quality control techniques are used to the extent TI deems necessary to support this warranty. Except where mandated by applicable law, testing of all parameters of each component is not necessarily performed.

TI assumes no liability for applications assistance or the design of Buyers' products. Buyers are responsible for their products and applications using TI components. To minimize the risks associated with Buyers' products and applications, Buyers should provide adequate design and operating safeguards.

TI does not warrant or represent that any license, either express or implied, is granted under any patent right, copyright, mask work right, or other intellectual property right relating to any combination, machine, or process in which TI components or services are used. Information published by TI regarding third-party products or services does not constitute a license to use such products or services or a warranty or endorsement thereof. Use of such information may require a license from a third party under the patents or other intellectual property of the third party, or a license from TI under the patents or other intellectual property of TI.

Reproduction of significant portions of TI information in TI data books or data sheets is permissible only if reproduction is without alteration and is accompanied by all associated warranties, conditions, limitations, and notices. TI is not responsible or liable for such altered documentation. Information of third parties may be subject to additional restrictions.

Resale of TI components or services with statements different from or beyond the parameters stated by TI for that component or service voids all express and any implied warranties for the associated TI component or service and is an unfair and deceptive business practice. TI is not responsible or liable for any such statements.

Buyer acknowledges and agrees that it is solely responsible for compliance with all legal, regulatory and safety-related requirements concerning its products, and any use of TI components in its applications, notwithstanding any applications-related information or support that may be provided by TI. Buyer represents and agrees that it has all the necessary expertise to create and implement safeguards which anticipate dangerous consequences of failures, monitor failures and their consequences, lessen the likelihood of failures that might cause harm and take appropriate remedial actions. Buyer will fully indemnify TI and its representatives against any damages arising out of the use of any TI components in safety-critical applications.

In some cases, TI components may be promoted specifically to facilitate safety-related applications. With such components, TI's goal is to help enable customers to design and create their own end-product solutions that meet applicable functional safety standards and requirements. Nonetheless, such components are subject to these terms.

No TI components are authorized for use in FDA Class III (or similar life-critical medical equipment) unless authorized officers of the parties have executed a special agreement specifically governing such use.

Only those TI components which TI has specifically designated as military grade or "enhanced plastic" are designed and intended for use in military/aerospace applications or environments. Buyer acknowledges and agrees that any military or aerospace use of TI components which have **not** been so designated is solely at the Buyer's risk, and that Buyer is solely responsible for compliance with all legal and regulatory requirements in connection with such use.

TI has specifically designated certain components as meeting ISO/TS16949 requirements, mainly for automotive use. In any case of use of non-designated products, TI will not be responsible for any failure to meet ISO/TS16949.
