Technical Article Summertime Showdown: DSPs vs FPGAs

Mark Nadeski

Our fifth episode of our DSP Breaktime video series is up. In this episode we discuss FPGAs, particularly how the 66AK2L06 can replace an FPGA in your system and how the DSP blocks inside an FPGA differ from a dedicated DSP Processor.

How does TI's 66AK2L06 change the DSP/FPGA landscape?

Questions/Comments? #DSPBreak

Mark: @DSPMark

We also give our great E2E support forum some love, get you prepped for summer by talking about roller coasters and we reveal what the deal is with the gigantic red cups in our videos.

We're always looking for what interests you, so send us your questions or topics in the comments section and we'll address them in future videos. You can also tweet them to us @DSPMark or @EclipseBuzz using the #DSPBreak.

You can also tell us what is your favorite roller coaster or summertime activity as we'd love to know.

In the meantime, check out our DreamDSP page and enjoy the summer!
