

SIMPLE SWITCHER® Nano Module Preliminary Evaluation Board

Thank you for your interest in the new, next generation SIMPLE SWITCHER® Nano Module. Please be aware that this evaluation board is being offered as a preview product and has been manufactured with engineering sample silicon. As such, it is subject to the following disclaimer:

Certificate Of Non-Qualified Engineering Samples

As a consideration for the right to sample preliminary pre-production devices prior to full qualification and production release ("Engineering Samples") by Texas Instruments, including its wholly-owned subsidiaries ("TI"), user agrees to accept such engineering samples as is in pre-production form without warranty of any kind for the sole purpose of engineering evaluation and testing.

TI provides the engineering samples "As Is" and hereby disclaims all warranties, expressed, implied or otherwise, including warranties of merchantability, fitness for a particular purpose, and non-infringement of intellectual property rights.

Please contact your TI or distribution sales representative for this product's technical documentation on this product.

See all things SIMPLE SWITCHER at:
simpleswitcher.com

TI does not assume or authorize any other person to assume for it any other liability in connection with the engineering samples. The entire risk as to the quality, or arising out of the use or performance of the engineering samples remains with user. In no event shall TI be liable in contract, tort, warranty, strict liability, or otherwise for any special, indirect, incidental or consequential damages, including but not limited to, the cost of labor, requalification, delay, loss of profits or goodwill, even if TI is advised of the possibility of such damages.

Important Notice: The products and services of Texas Instruments Incorporated and its subsidiaries described herein are sold subject to TI's standard terms and conditions of sale. Customers are advised to obtain the most current and complete information about TI products and services before placing orders. TI assumes no liability for applications assistance, customer's applications or product designs, software performance, or infringement of patents. The publication of information regarding any other company's products or services does not constitute TI's approval, warranty, or endorsement thereof.
